

Makena Golf Course, consistently rated one of the top courses in Hawaii, has long been a standard bearer for an unforgettable experience. The course winds up, down, over and around the verdant foothills of Maui's 10,028 foot-high dormant volcano, Mt. Haleakala, offering awe-inspiring ocean and mountain views on every hole. To many it feels more like a nature walk than a golf course, with its natural ravines, stream beds, and wild kiawe forests providing a truly memorable setting to enjoy your day on the links. Makena Golf Course will satisfy any golfer in pursuit of the ultimate round in paradise.
